This publication is required for official use for administrative or operational purposes only. Distribution is limited to U.S. Government agencies. Other requests for this document must be referred to: Commandant of the Marine Corps (HQSP-2) Washington, D.C. 20380-0001.

Destruction Notice: For unclassified, limited documents, destroy by any method that will prevent disclosure of contents or reconstruction of the document.

1. Change 1 to this joint technical manual SL-4-05926B/06509B-24P/2/TM 5-6115-615-24P/NAVFAC P-8-646-24P/TO 35C2-3-386-34 is for Army use only. It is effective upon receipt and provides organizational, direct support, and general support repair parts and special tools list for Generator Set, Engine Driven, Tactical, Skid-Mounted, 3 KW DOD Model MEP 701A, 60 Hz, NSN 6115-01-234-5966. Model 701A is a modified model MEP 016B with the addition of the Acoustic Suppression Kit (ASK), NSN 6115-01-271-1584. The ASK is intended to suppress the high noise level inherent in a diesel-driven generator.

2. Reporting of discrepancies or suggested changes should be submitted on a DA Form 2028 directly to:

Commander
 U.S. Army Troop Support Command

ORGANIZATIONAL, INTERMEDIATE (FIELD) (DIRECT SUPPORT AND
 GENERAL SUPPORT) AND DEPOT MAINTENANCE REPAIR PARTS AND
 SPECIAL TOOLS LIST

Section I. INTRODUCTION

1. SCOPE. This joint Army, Navy, Air Force and Marine Corps manual lists repair parts and special tools required for the performance of organizational, intermediate (field) (direct and general support) and depot maintenance of the generator set. The following paragraphs are keyed to applicable users. All users should read paragraph 4, Special Information, prior to using this manual.

2. GENERAL. This Repair Parts and Special Tools List is divided into the following sections:

a. (ALL) Repair Parts - Section II. A list of repair parts authorized for the performance of maintenance at the organizational, intermediate (field) (direct support and general support) and depot level in figure and item number sequence.

b. (ALL) Special Tools, Test and Support Equipment - Section III. A list of special tools, test and support equipment authorized for the performance of maintenance at the organizational, intermediate (field) (direct support and general support) and depot level.

c. National Stock Number and Reference Number Index - Section IV. A list of National stock numbers in numerical sequence, followed by a list of reference numbers appearing in all the listings, in alphanumeric sequence, cross referenced to the illustration figure number and item number.

d. Reference Designator Index - Section V. The reference designator column includes all assigned reference designators arranged first in alphabetical order, second in numeric

order. Opposite each symbol is listed the figure and item number of the part in Section II and the reference number.

3. EXPLANATION OF COLUMNS. The following provides an explanation of columns in the tabular lists in Sections II and III.

a. (ALL) Illustrations.
 (column I) This column is divided as follows:

(1) Figure Number. Indicates the figure number of the illustration on which the item is shown.

(2) Item Number. Indicates the number used to identify the item on the illustration.

b. (ALL) Source, Maintenance, and Recoverability Codes (SMR). (Column 2)

(1) Uniform source codes applicable to all Military Services.

GENERAL: Source codes are assigned to support items to indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items. Source codes are entered in the first and second positions of the Uniform SMR Code format as follows:

Code	Definition
PA	Item procured and stocked for anticipated or known usage.
PB	Item procured and stocked for insurance purposes because essentiality dictates that a minimum quantity be available in the supply systems.

Pc	Item procured and stocked and which otherwise would be coded PA except that it is deteriorative in nature.	MF	Item to be manufactured or fabricated at the following intermediate maintenance levels:
PD	Support item, excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional initial issues or outfitting. Not subject to automatic replenishment.		USAF - Intermediate (*) USA - Direct Support (*) USMC - Third Echelon USN - Ashore
PE	Support equipment procured and stocked for initial issue or outfittings to specified maintenance repair activities.	MG	Item to be manufactured or fabricated at both afloat and ashore intermediate maintenance levels - Navy use only.
PF	Support equipment which will not be stocked but which will be centrally procured on demand.	MH	Item to be manufactured or fabricated at the general support maintenance level.
PG	Item procured and stocked to provide for sustained support for the life of the equipment. It is applied to an item peculiar to the equipment which because of probable discontinuance or shutdown of production facilities would prove uneconomical to reproduce at a later time.	MD	Item to be manufactured or fabricated at depot maintenance level.
KD	An item of depot overhaul/repair kit and not purchased separately. Depot kit defined as a kit that provides items required at the time of overhaul or repair.	AO	Item to be assembled at organizational level.
KF	An item of maintenance kit and not purchased separately. Maintenance kit defined as a kit that provides an item that can be replaced at organizational or intermediate levels of maintenance.	AF	Item to be assembled at the following intermediate maintenance levels: USAF - Intermediate (*) USA - Direct Support (*) USMC - Third Echelon USN - Afloat
KB	Item included in both a depot overhaul repair kit and a maintenance kit.	AH	Item to be assembled at the following intermediate maintenance levels: USAF - Intermediate (*) USA - General Support (*) USMC - Fourth Echelon USN - Ashore
MO	Item to be manufactured or fabricated at organizational level.	AG	Item to be assembled at both afloat and ashore intermediate maintenance levels - Navy use only.
		AD	Item to be assembled at depot maintenance level.

- XA Item is not procured or stocked because the requirements for the item will result in the replacement of the next higher assembly.
- XB Item is not procured or stocked. If not available through salvage, requisition.
- XC Installation drawings, diagram, instruction sheet, field service drawing that is identified by manufacturer's part number.
- XD A support item that is not stocked. When required item will be procured through normal supply channels.

(*) NOTE: For USAF and the USA Safeguard Program. Only Code "F" will be used to denote intermediate maintenance. On joint programs, use of either code F or H by the joining service will denote intermediate maintenance to USAF and USA Safeguard Program.

(2) Uniform maintenance codes applicable to all Military Services:

GENERAL : Maintenance codes are assigned to indicate the levels of maintenance authorized to USE and REPAIR support items. The maintenance codes are in the third and fourth position of the Uniform SMR Code Format.

(a) USE (THIRD POSITION): The maintenance code entered in the third position indicates the lowest maintenance level authorized to remove replace, and use the support item. The maintenance code entered in the third position indicates one of the following levels of maintenance:

Code Application/Explanation

- O Support item is removed, replaced, used at the organizational level of maintenance.

- F Support item is removed, replaced, used at the following intermediate levels:

USAF - Intermediate (*)
 USA - Direct Support (*)
 USN - -Afloat
 USMC - Third Echelon

- G Support item is removed, replaced, used at both afloat and ashore intermediate Levels - Navy use only.

- H Support item is removed, replaced, used at the following intermediate levels:

USAF - Intermediate (*)
 USA - General Support (*)
 USN - Ashore (only)
 USMC - Fourth Echelon

- D Support items that are removed, replaced, used at depot only:

USAF - Depot. Mobile Depot and Specialized Repair Activity
 USA - Depot. Mobile Depot and Specialized Repair Activity
 USN - Aviation Rework. Avionics and Ordnance Facilities and Shipyards
 USMC - Depot

(b) REPAIR (FOURTH POSITION): The maintenance code entered in the fourth position indicates whether the item is to be repaired and identifies the lowest maintenance level with the capability to perform complete repair (i.e., all authorized maintenance functions).

Code Application/Explanation

- O The lowest maintenance level capable of complete repair of the support item is the organizational level.
- F The lowest maintenance level capable of complete repair of the support item is the following intermediate levels:

USAF - Intermediate (*)
 USA - Direct Support (*)
 USN - Ashore (only)
 USMC - Third Echelon

H The lowest maintenance level capable of complete repair of the support item is the following intermediate levels:

USAF - Intermediate (*)
 USA - General Support (*)
 USN - Ashore (only)
 USMC - Fourth Echelon

(*) NOTE: For USAF programs and the USA Safeguard Program Code F will be used to denote intermediate maintenance. On joint programs, use of either Code F or H by the joining Service will denote intermediate maintenance to USAF and the USA Safeguard Program.

G Both afloat and ashore intermediate levels are capable of complete repair of support item - Navy use only. The lowest maintenance level capable of complete repair of the support item is the depot level.

USAF - Depot. Mobile Depot, and Specialized Repair Activity
 USA - Depot. Mobile Depot and Specialized Repair Activity
 USN - Aviation Rework. Avionics and Ordnance Facilities Shipyards
 USMC - Depot.

L Repair restricted to designated Specialized Repair Activity.

Z Nonreparable. No repair is authorized.

B No repair is authorized. The item may be reconditioned by adjusting, lubricating, etc., at the user level. No parts or special tools are procured for the maintenance of this item.

(3) Uniform Recoverability Codes applicable to all Military Services.

GENERAL: Recoverability codes are assigned to support items to indicate the disposition action on unserviceable items. The recoverability code is entered in the fifth position of the uniform SMR Code Format as follows:

Code	Definition
------	------------

Z	Nonreparable item. When unserviceable, condemn and dispose at the level indicated in column 3.
---	--

O	Reparable item. When uneconomically reparable, condemn and dispose at organizational level.
---	---

F	Reparable item. When uneconomically reparable, condemn and dispose at the following intermediate levels:
---	--

USAF - Intermediate (*)
 USA - Direct Support (*)
 USN - Afloat
 USMC - Third Echelon

H	Reparable item. When uneconomically reparable, condemn and dispose at the following levels:
---	---

USAF - Intermediate (*)
 USA - General Support (*)
 USN - Ashore
 USMC - Fourth Echelon

(*) NOTE: For USAF programs and the USA Safeguard Program, Code F will be used to denote intermediate maintenance. On joint programs, use of either Code F or H by the joining Service will denote intermediate level of USAF and the USA Safeguard Program.

D	Reparable item. When beyond lower level repair capability, return to depot. Condemnation and disposal not authorized below depot level.
---	---

L Reparable item. Repair, condemnation and disposal not authorized below depot/Specialized Repair Activity level.

A Item requires special handling or condemnation procedure because of specific reason (i.e., precious metal content, high-dollar value, critical material or hazardous material). Refer to appropriate manuals/directives for specific instructions.

c. (All) National Stock Number (NSN). (Column 3). Indicates the NSN assigned to the item and will be used for requisitioning purposes.

d. (ALU Description. (Column 4). Indicates the Federal item name and any additional descriptions of the item required. The abbreviation "w/e" when used as part of the nomenclature, indicates that the NSN includes all armement, equipment, accessories and repair parts issued with the item. A part number or other reference number is followed by the applicable five digit FSCM in parentheses. If two reference numbers and Federal Supply Codes for manufacturer are listed, the first listing refers to the DOD Drawing Number, the second listing refers to the actual part manufacturer. Items that are included in kits and sets are listed below the name of the kit or set with the quantity of each item in the kit or set indicated in the quantity incorporated in unit column.

e. (ALL) Unit of Measure (U/M). (Column 5). Indicates the standard of the basic quantity of the listed item as used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical abbreviation (e.g., ea. in. pr. etc.). When the unit of measure differs from the unit of issue, the lowest unit of issue that will satisfy the required units of measure will be requisitioned.

f. (ALL) Quantity Incorporated in unit. (Column 6). Indicates the quantity of the item used in the assembly group. A "V" appearing in this column in lieu of a quantity indicates that a definite quantity cannot be indicated (e.g., shims, spacers, etc.).

g. (MC) Quantity Per Equipment. (Column 7). Indicates the consolidated quantity of a maintenance part used on an end item upon the parts first appearance in this publication.

4. SPECIAL INFORMATION.

a. (ALL) Usable On Code.
 Identification of the usable on codes of this publication for various DOD models are:

code	Used On
A	MEP-016B
B	NBP-021B
C	MBP-026B

b. (Army) Higher Level Code.
 Organizational maintenance personnel will extract the items which they require from Section II, 3rd or 4th position of column 2 of the direct and general support RPSTL. Parts which are manufactured or assembled at a higher level than that authorized to install the part are indicated by the use of higher level code in the source column.

c. Stockage Information.

(1) Air Force stockage information is contained in Initial Supply Support Lists issued separately from this publication by Sacramento Air Logistics Center in accordance with AFM 67-1. part 1. chapter 12.

(2) Navy stockage objectives are contained in Consolidated Shipboard Allowance List as furnished separately from this publication by the Ship Parts Control Center.

(3) Army stockage is demand based in accordance with AR 710-2. Repair parts listed in this publication represent those authorized for use at indicated maintenance levels and will be requisitioned on an as required basis until stockage is justified in accordance with AR 710-2.

5. HOW TO LOCATE REPAIR PARTS.

a. (ALL) When NSN or reference number is unknown:

(1) Using the table of contents, determine the functional group: i.e., batteries and related parts, exhaust and breather pipes, within which the repair part belongs. This is necessary since illustrations are prepared for functional groups, and listings are divided into the same groups.

(2) Find the illustration covering the functional group to which the repair part belongs.

(3) Identify the repair part on the illustration and note the illustration figure and item number of the repair part.

(4) Using the Repair Parts Listing, find the figure and item number noted on the illustration.

b. (ALL) When NSN or reference number is known:

(1) Using the NSN and Reference Numbers Index, find the pertinent NSN or reference number. This index is in ascending NSN sequence followed by a list of reference numbers in alphanumeric sequence, cross-referenced to the illustration figure number and item number.

(2) After finding the figure and item number, locate the figure and item number in the repair parts list.

6. (F) USE OF THE REFERENCE

DESIGNATOR INDEX SECTION. This Section (Section V) is used when the reference designator is known or identified by other technical manuals supporting this equipment. The reference number is given in this Section. If description or location is desired, note the figure and item number. Turn to Section II to the noted figure and item number. The location of the part and description is given in this listing.

7. ABBREVIATIONS .

Abbreviation	Explanation
	(All abbreviations are covered under MIL-STD-12)

8. COMMERCIAL AND GOVERNMENT ENTITY (CAGE) CODE.

Code	Manufacturer
19207	U.S. Army Tank Automotive Command Warren, MI 48090
30554	Project Manager - Mobile Electric Power 7500 Backlick Road Springfield, VA 22150-3107
44940	ONAN Corp. U.S. Power Product Div. 1400 73rd Ave. N.E. Minneapolis, MN 55428
45722	USM Corp. Subsidiary of Emhart Industries, Inc. Parker-Kalon Fastener Div. Campbellsville, KY 42718
70411	Anderson Brass Co. 100 S. Campbell Ave. Detroit, MI 48209-3102
72850	Facet EnterPrises Motor Component Div. 18Th Street and Oakwood Ave. Elmira, Ny 14903

76700 Nelson Div. Nelson Industries
 Inc.
 Hwy. 51 West P.O. Box 428
 Stoughton, WI 53589

**9. RECOMMENDATION OF
 MAINTENANCE PUBLICATION IMPROVEMENTS.**
 Report of errors, omissions and
 recommendations for improving this
 publication by the individual user is
 encouraged. Reports should be
 submitted as follows:

a. Air Force. AFTO Form 22 in
 accordance with T.O. 00-5-1, directly
 to: Commander Sacramento Air Logistics
 Center, ATTN MMEDT, McClellan AFB, CA
 95652

b. Army. DA Form 2028, directly
 to: Commander, .US Army Troop Support
 Command, ATTN: AMSTR-MCTS, 4300
 Goodfellow Boulevard, St. Louis, MO
 63120

c. Marine Corps. NAVMC 10772
 directly to: Commanding General,
 Marine Corps Logistics Base (Code 850),
 Albany, Georgia 31704-5000.

d. Navy. Letter, directly to:
 Commanding Officer, US Navy Ship Parts
 Control Center, ATTN: Code 783,
 Mechanicsburg, PA 17055
